

Vince Poscente – Introduction

(Please read this as if you wrote it – take your time –emphasize underlined words – have fun with it.)

How to speed past obstacles, thrive in a time-starved world and embrace uncertainty are the benefits you'll experience from our next speaker.

In his words, “When individuals align their subconscious agendas with the uncanny power of intentions - magic happens. Life gets easier.”

Since 1992 he has researched, wrote and presented on life mastery. He is the author of six books, including the international phenomenon, ***The Ant and the Elephant*** and ***The Age of Speed***. His background as a Record Setting Athlete with a masters in Organizational Management - alongside his corporate leadership experience - culminate into an invigorating perspective on accelerating past problems towards sustained growth.

Of note, our next speaker went from recreational skier to the Olympic Winter Games in just four years. In the pursuit of a Gold Medal, he rocketed down the mountain at 135 mph on skis.

Please welcome Hall of Fame speaker, New York Times bestselling author, Olympian and second chair clarinet player in his high school band...
