

## **Vince Poscente Program Description**

### **HEROES CLIMB - THE ASCENT FROM I TO US**

"You are already a hero. It is time for you to quit playing small and reveal that hero within you. Come, be big, so others can delight in your presence."

In this keynote, NYT's bestselling author Vince Poscente, shares the secrets of heroism that lie in each person. While we celebrate famous athletic and situational heroes, Poscente unpacks the belief that we each have the opportunity to be EVERYDAY HEROES.

This keynote challenges each attendee to find the personal trajectory that allows them to make a difference through personal accountability and integrity.

A great storyteller, Vince shares five key descriptions for heroism:

- Fearless
- Selfless
- Humble
- Compassionate
- Persistent

Vince punctuates portions of the keynote with video, photos and descriptions of his many trips leading "ordinary" individuals on once-in-a-lifetime excursions to scale Himalayan mountains.

Electric, fast-paced and entertaining, Vince Poscente will leave your attendees eager to make a difference and challenge the status quo.
