## **SUGGESTED INTRODUCTION**

**SUNEEL GUPTA** is the international bestselling author *BACKABLE* and is currently writing a new book on the changing world of work, and how leaders succeed both internally and externally. Suneel is the founding CEO of rise, which partnered with then first lady Michelle Obama to deliver low-cost healthcare services to people in need. Rise was named "app of the year" by apple and sold in a successful exit to the Nasdaq-listed company one medical. Suneel serves as a visiting scholar at Harvard medical school and emissary for gross national happiness between the United States and the kingdom of Bhutan. When a reporter once asked Suneel about his purpose, his response was to "find good people, and inspire them to do what inspires them."

Please welcome, Suneel Gupta...
