

Amy Jo Martin A/V Requirements

Amy Jo's Technical and A/V Requirements

To ensure the best possible experience for your audience, and Amy Jo, we've included Amy Jo's technical rider and A/V requirements, below.

Client will provide the following:

- A dedicated cordless lavalier microphone and body pack to Speaker for the duration of the engagement.
- Access to 2 x confidence monitors for duration of Speaker's session. Monitors are required to display Speaker's notes, the current slide and the next slide.
- A rehearsal and tech check at least sixty (60) minutes prior to keynote session start time.
- A dedicated on-site tech assistant, or equivalent contact, to co-ordinate Speaker's slides, fonts and presentation.
- A dedicated Mac laptop with Keynote for Mac capabilities, to display Speaker's presentation.
- A slide advancer/clicker.
- At least one (1) wireless microphone to be used for the Q&A session with attendees and a runner to help facilitate questions from within the crowd (if applicable).
- Access to the mono and/or stereo output on the sound system desk, so that Amy Jo's session audio can be recorded by an AJM, LLC representative (if applicable)
- A clear stage area to present from - no podiums, tables or other furniture unless specifically requested by Speaker. Disregard if session is a panel discussion.

Speaker will provide the following:

- Slides, fonts and presentation, created in Apple Keynote for Mac, to Customer's designated representative 24 hours prior to the event start time via email.
- A world class experience for your attendees.
