We are a patriotic group always; we love our great country, and hearing from one of our amazing veterans made everyone's day and relit that spark of patriotism inside each of us. One of the highlights for me was not only the way he personalized his presentation, but he did so with such accuracy of our industry. Brilliant!! "Jason Harris does not disappoint! The theme of our event was Connect. Trust. Deliver. There could not be three words that are more perfect in describing Jason and his character. Jason's high energy

message of No Fail Trust was on point! He highlighted how human connections can help us expand our knowledge and perspectives, build trust, and enhance our ability to deliver products to our customers. One of the developers on the team reached out and gave us the best feedback, 'Just watching this presentation has made me a better person!' If you are considering bringing Jason Harris into your organization for a speaking event, do not delay. You will not regret it!"

Mike McQueen, MD, MBA – Vice President, Medical Affairs, Vapotherm

"Describing the performance Lt. Col. Jason Harris in front of an audience in one word would be easy, except for the competing appropriate words: dynamic, inspirational, credible, and energizing make the final four. Lt. Col. Harris doesn't just highlight the importance of every role within the organization, he emphasizes the importance of every person in the organizational hierarchy placing full trust in each and every role, and his credentials and experience bring that message home. Hearing Lt. Col. Jason Harris speak will be a benefit to any organization of any size, in any stage of development. I personally thank him for his service and for sharing his expertise."

Anthony Demangone – Executive Vice President and Chief Operating Officer, National Association of Federally Insured Credit Unions (NAFCU)

"Jason delivers! We hired Jason to keynote a virtual event in 2021. His message, delivery and enthusiasm was top-notch. He also agreed to do a pre-conference networking session where he helped lead a trivia session about the U.S. Air Force. We received numerous comments from attendees remarking how strong his address was. I highly recommend that you consider Jason. Please feel free to reach out with any questions."

Frederick Birts Sr. – Owner of Strib Pest Control Company LLC, NPMA Pest World 2023

"Uplifting session. I'm a retired City of Milwaukee Police Sergeant with 25 years of service. After looking at other businesses to start, I started my company 7 years ago doing pest control. Business has been better than expected. Your talk was right on point because I'm at the point to grow and have been struggling with the trust factor of hiring young people to work for me. Your talk has given me a new focus on moving forward. Enjoyed your talk. Thank you for your service."

Frederick H. Birts Sr. – Owner of Strib Pest Control Company LLC, NPMA Pest World 2023
